Reserve this Sculpture: "Memorial for Unborn Children"

The Unborn Child sculpture is available for reservation at your pro life agency, church, school, pregnancy center, etc. Keep it for 2-4 weeks for special events such as: a retreat, pro life talking points in the classroom setting, or for prayerful reflection in your church or chapel. The goal is to reach and stir healing, hope, reconciliation and forgiveness for those who regret their abortion and grieve the loss of their child. The photos give examples of how other places have respectfully displayed it in their locations. For more information to reserve your time to share this unique sculpture, please contact: Jim Axt: 262-441-3839 or electriccharge@me.com . (Check out the video at the links below.)

• Thank you, Dan; this video is very nice. God bless you! — Martin Hudáček

▼ St. Mary's Parish, Waukesha.

* All four Catholic Community of Waukesha Parishes (WI) took a month displaying the sculpture: St. Joseph, St. Mary, St. John Neumann and St. William

"As a young art student, Martin Hudáček of Slovakia was moved to create a sculpture for his University project to draw attention to the devastation abortion can bring to the mother [and father], and to the fact that, through the love and mercy of God, reconciliation and healing are possible." — Dan Zeidler, Family Life Council, Inc.

* This sculpture also touches deeply the loss felt in miscarriage, stillbirth, and many other infant and childhood losses.
